...Ridge Crest, a specialist cleaning and facilities management business. We aim to save our clients money whilst delivering a level of service that exceeds their expectations.

We are highly experienced at working in a wide range of environments in the education, industrial, leisure and commercial sectors. We also work with multi-site national and local government agencies.

We work with our clients and key partners to provide environmentally sustainable cleaning services and products that save money.

pioneering sustainable cleaning

why...

...we aim to deliver an outstanding level of personal service and value for money. By continually benchmarking our services we ensure we're offering best value.

- Sustainable cleaning and eco-supplies.
- Deep cleaning specialists.
- Wrap-around support, 24/7.
- Superior, eco-friendly office cleaning.

Our service helps to divert waste from landfill by recycling and by using fewer cleaning products.

www.ridgecrestcleaning.com

professional personal responsive

Ridge Crest offers a full range of specialised cleaning and facilities management services to a broad range of clients.

We offer a depth of experience across a wide range of business sectors. Our professional staff are highly trained and CRB-checked.

All our cleaning contracts show a firm commitment to the environment.

We take time to understand your specific needs – this saves time and money. We work hard at developing bespoke solutions tailored to each environment.

what...

...we supply quality, innovative services at highly competitive rates. Our 100% sustainable cleaning contract enables us to pass on cost savings of up to 20% to all our clients.

- Green cleaning saves you money.
- Innovative solutions help save costs.
- Our flexible team responds quickly and effectively.
- We cut costs, not corners.

We believe that "going green" is commercially viable as well as being the right thing to do.

Case study Maidstone Borough Council

guaranteed cost savings

In 2005, Ridge Crest became the first cleaning company in the UK to provide a completely sustainable cleaning contract for Maidstone Borough Council.

Ridge Crest Cleaning pioneered the use of environmentally friendly and biodegradable cleaning products.

Our green audits recommended green products and our site surveys identified recycling opportunities that resulted in cost savings.

Every bin liner is biodegradable and the Council's paper towels and toilet rolls are manufactured from 100% post consumer recycled and chlorine free products.

how...

...we respond quickly and efficiently to improve our quality control where it's needed. Our audit system is tried, tested and continually evaluated.

- We're accurate and impartial.
- We aim to maintain and improve standards to avoid incidents.
- We introduce improvements one step ahead for clients.
- All staff trained in environmental and health and safety standards.

We strictly adhere to our Quality Policy and believe that best value will be achieved through an effective working partnership between you and us.

tried tested evaluated

We add-value from the start. From the initial visit we consult and make an accurate no-obligation assessment.

By delivering a flexible proposal we aim to meet all your needs and exceed expectations. Our approach ensures we work with all parties to ensure we offer the best, least cost solution.

Our regular visits ensure that our services continue to meet your requirements. We nurture a sound business relationship based on regular face-to-face contact.

We continue to add value by benchmarking our service to ensure we deliver quality and value.

? answered...

...we are green cleaning pioneers and have developed a reputation for delivering best value through partnership. Our innovative solutions help save costs.

Q: When was Ridge Crest Cleaning founded?

A: Set up in 1988, the business has developed a unique blend of skills and innovative thinking which has steered Ridge Crest towards phenomenal growth and success. In 2005, working in partnership with Maidstone Borough Council, we introduced the UK's first environmentally-friendly cleaning contract. Growth is driven by delivering an outstanding level of personal service.

Q: What are the main benefits of a Ridge Crest contract?

A: We are typically 20% cheaper than other cleaning businesses. Because the management team is relatively small and lean, we're able to handle fewer contracts personally and so quickly adapt to clients' needs and develop solutions effectively. Our green cleaning contract helps all businesses to demonstrate an ongoing commitment to the environment and meet their legal requirements.

Q: Are Ridge Crest contracts cheaper than competitors?

A: By using only green products we can typically save our clients 20% per contract. We need only four eco-friendly products instead of 16 traditional products. These products are in no way inferior – in fact, often they are better and come with practically no health risks.

Q: What is the Ridge Crest commitment to the environment?

A: Ridge Crest cuts the amount of waste produced. We buy from local suppliers; encourage staff to car-share; conduct green audits; raise staff awareness of green cleaning issues; divert waste from costly landfill; sell waste for profit; purchase green products; use alternative fuels and green quality monitoring systems.

Q: Why is Ridge Crest so popular amongst schools?

A: We understand the unique set of challenges faced by schools so we work with them to tailor-make solutions. We clean at flexible times to suit each establishment, thereby resulting in no loss of teaching time. We offer a recycling and waste management service. By using exclusively green cleaning products, we typically cut costs by 20% and help schools to attain eco-school status.

Q: What are the benefits of green purchasing?

A: Green purchasing minimises the use of chemicals whilst the use of harder-wearing non-woven cloths and steam cleaning improves productivity and cost-efficiency.
